	Chief Engineer	Zroilski	- adviser to Maj Koslov

2. German Personnel

50X1-HUM

a. Most of the German personnel (including non-technical personnel) were recently required to sign a contract. The contracts, which are effective retroactively as of 1 May 1947, are vague in their provisions, but opinion is unanimous that they constitute a security measure whose object is to prevent its becoming known beforehand which of the personnel have been selected to serve in the USSR. Only a few are qualified for work in an establishment analagous to Peenemünde. Most of the German employees think that the situation permits them no choice, and are prepared to sign the contract.
